An Able Lawyer With a Clean Record**Thomas P. Walton**

Out for

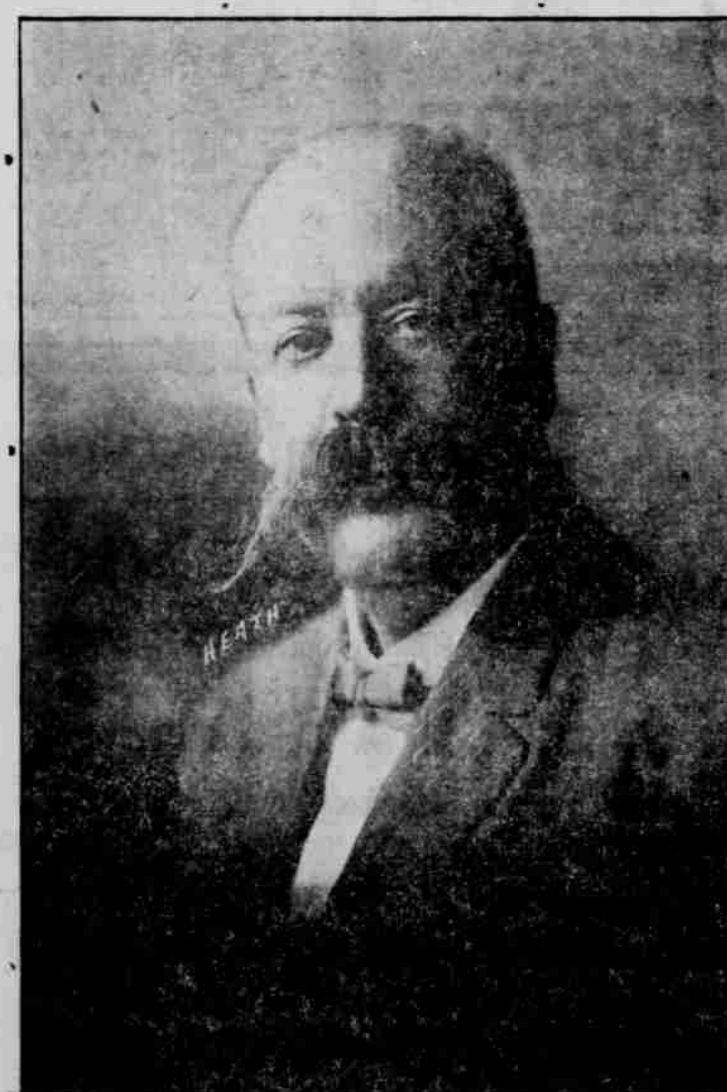

Legislature

Thomas P. Walton, one of the busiest and reputed one of the ablest young attorneys of the State is a candidate for the Lower House of the State Legislature, subject to the action of the Democratic Primary, September 12, 1916.

He will be remembered as having made the race for County Attorney two years ago.

It is a regrettable fact that more of our best lawyers and business men do not offer their services to the State in this capacity. Under our dual system of government the State of Arizona is an independent sovereign in many respects. The best men of the nation seek to serve their respective states in the national Houses of Congress yet under the Constitution of the United States the field of legislation for our national body is limited. The only subjects on which Congress may enact laws are those either expressly or impliedly granted to it by the Constitution of the United States. All other powers of legislation are expressly reserved to the States. The Courts of this State are busy almost daily dealing with the rights of litigants and probably 95% of the laws involved are those deriving their authority from the state. Most of our laws originally came from England centuries ago and few of them have been improved upon by us, but England with her House of Lords and House of Commons composed of the best men of the Nation has made her laws plain, her Court procedure simple and the execution of her laws speedy and unerring.

Mr. Walton will probably not be able to see very many of the voters of the County during the short time between now and the primaries, but he wishes his friends to know that he is in the race in earnest and wishes their support. He promises to give this County as well as the State the best service of which he is capable if elected. He stands for economy and efficiency in legislation, for the upbuilding of all the industries of the State, for good roads, for justice to the working men and encouragement to make their condition better, for fairness to capital and last but not least enact such legislation as is needed and adjourn.

I believe in giving the taxpayers one hundred cents of value for each dollar of their money spent.**To the Voters of Maricopa County:**

I am a candidate, as you well know, for the office of Sheriff of your county and if I am elected, I will be elected by the taxpayers and wage earners of this county as I am not supported by any clique or faction and will enforce the law without FEAR OR FAVOR.

If I am elected to this important office I have no enemies to punish nor friends to reward, but will select my deputies from the rank and file of the party, thereby enabling me to secure the most efficient service.

I will not ask for more than two terms of two years each to this office, nor will I appoint any relatives to deputyships, and will administer the office as economically as is consistent with efficient service.

If my views meet with yours in this matter, and I believe they will I will very much appreciate your vote on next Tuesday.
